[AT A GLANCE...](#)

- [THE STORY:](#)
[A new study published at the NIH PubMed site on July 16th 2020, and published earlier](#)

[elsewhere in June 2020, mathematically models how the millimeter waves of 5G tech could induce the body to create coronaviruses like SARS-CoV-2 / COVID.](#)

- **[THE IMPLICATIONS:](#)**

[Why have authorities desperately tried to silence those pointing out the 5G-coronavirus connection? Why are we worried about supposedly contagious surfaces when battlefield technology is being rolled out worldwide that can penetrate and manipulate our very DNA?](#)

[5G induces coronaviruses](#)

[according to a new study just published on the US NIH \(National Institute of Health\) website PubMed.gov and published earlier elsewhere. The study, entitled *5G Technology and induction of coronavirus in skin cells* \(full version here\), comes to the shocking conclusion – shocking from a mainstream scientific viewpoint – that 5G technology can instigate the body to produce viruses as a cellular response. Guess what? The 5G **millimeter waves** \(so-called because they operate in extremely high frequencies where there is less than a millimeter between the wave peaks\) can make the body produce not just any class of viruses but actually coronaviruses! This research peels back another layer of Operation Coronavirus, affirming the coronavirus 5G connection that I and others were warning about in February when this entire pandemic got off the ground. In that article I asked the question: “*What if 5G is being used to open up the skin of those in Wuhan so as to allow the new bioweapon coronavirus to infiltrate more easily?*” Now with more information the question could be: “*What if 5G is being used to open up the skin and simultaneously create coronaviruses?*”](#)

[Research Spells Out How EMF in the Form of 5G Induces Coronaviruses](#)

[I will reproduce the entire abstract of the study here:](#)

[Turn on and off your genes.](#) That is SERIOUS power which 5G operators have over the population.

[This echoes what I wrote in the 2017 article *5G and IoT: Total Technological Control Grid Being Rolled Out Fast* where I referenced the research of Israeli scientist Dr. Ben-Ishai, who showed that our sweat ducts work like helical antennas, absorbing energy and EM frequencies between 75-100 GHz, part of the range used by 5G.](#)

[5G Induces Coronaviruses – Further Implications](#)

[So what are the implications of this study? There are many. Firstly, if 5G can be weaponized and aimed at people, firing EMF and manipulating their DNA to produce coronaviruses, then the external threat is not some new killer virus, but rather destructive battlefield technology](#)

disguised as telecommunications technology. Anyone still looking at airborne particles and worried about contaminated surfaces is missing the point completely. Secondly, building upon the first point, if the NWO (New World Order) controllers running this agenda have the power to induce people to make coronaviruses, or even a specific strain like SARS-CoV-2 (assuming it exists), then there is no 'contagion' or viral spread as such. Some such as Dr. Stefan Lanka believe contagion itself is a myth. Either way, there is no medical or legal justification for shutting down small businesses, quarantining and isolating people, forced mask wearing and social distancing, because in this scenario some new virus is not being spread; people are being induced to create it inside their own bodies. Thirdly, it adds more weight to the idea that 5G mimics **electroporation**, the microbiology technique which uses an electrical pulse to create temporary pores in cell membranes through which substances like chemicals, drugs or DNA can be introduced into the cell. Both electroporation and 5G use **pulsed waves** to open up the cell, thus allowing the DNA inside to be altered.

Fourthly, this research further bolsters the idea that the COVID phenomenon is linked to oxygen shortage (aka **hypoxia** or **under oxygenation**). This is explained in several ways, e.g. by the theory of Dr. Robert Young that COVID is actually blood coagulation, and by the 5G 60GHz effect on oxygen molecules. To recap, it is a fact that the 60 GHz band (used by 5G) affects oxygen. For instance, these technology/telecommunications websites ([here](#), [here](#) and [here](#)) explain how oxygen absorbs a very high percentage (98% on one website) of 60 GHz waves, therefore making it undesirable and ineffective for radio and communication. That analysis, of course, is from the viewpoint of efficient telecommunication. However, my viewpoint is the opposite; I am coming to the topic looking at it from a health perspective, so I don't care how much O2 is impeding telecommunications, I care about how much the 60 GHz is impeding my ability to breathe! Dana Ashlie explains in this February 2020 video (around the 11:00 mark) that when the O2 molecules absorb the 60 GHz waves, it affects the spin of their electrons. Changes to these spin frequencies in turn have impacts on human biology. It reduces the oxygen molecules' ability to fully bind with and saturate the hemoglobin in our blood, thus preventing us from fully uptaking oxygen, thus depriving us of fully oxygenating ourselves. With lower oxygen levels, our energy and immunity falls, and we become weaker.

With this new information, think back to some of the headlines from January this year, e.g. *Huawei Builds 5G Base Stations to Help Fight Corona Virus*. Did you catch that – to "help" fight coronavirus?! It's a sick joke. The cause of our problems is again presented as the solution.

Final Thoughts

This research is another crucial piece of the puzzle. We have known for awhile now that artificial EMF is causing great harm to us. We have also known for awhile that 5G is extremely dangerous in many ways, including hijacking our sweat duct antennae, bombarding us with pulsed waves (more damaging than continuous wave radiation), amplifying **DNA damage** via VGCCs, promoting deep EMF penetration and having mutagenic and carcinogenic effects, being emitted from a phased array structure that has been used for crowd dispersal. This research is more evidence that we are being deliberately poisoned, and that tales of species-jumping bat viruses from China are a red herring. We must continue to be vigilant in opposing 5G in all its forms, and doing what we can in our local area to prevent the 5G rollout. Our DNA depends on it. However, we must also be aware that **space-based 5G** satellites have been deployed earlier this year by SpaceX (run by Elon Musk), and other companies including Amazon, OneWeb and TeleSat have either done so as well or are about to. Time is running low for humanity to wake up.
